## **DETAILED ACTION**

### ***Election/Restrictions***

1. Restriction is required under 35 U.S.C. 121 and 372.

This application contains the following inventions or groups of inventions which are not so linked as to form a single general inventive concept under PCT Rule 13.1.

In accordance with 37 CFR 1.499, applicant is required, in reply to this action, to elect a single invention to which the claims must be restricted.

2. Group I, claim(s) 1-14, 16, and 18-21 are, drawn to an apparatus for treating an exhaust gas.
3. Group II, claim(s) 17 is, drawn to a method for treating an exhaust gas having carbon-containing particles and nitrogen oxides.
4. The inventions listed as Groups I and II do not relate to a single general inventive concept under PCT Rule 13.1 because, under PCT Rule 13.2, they lack the same or corresponding special technical features for the following reasons: Claim 17 is directed towards a method for treating an exhaust gas with a liquid including substance having a salt including oxygen acid radical of nitrogen at a temperature higher than 100°C and lower than 350°C to at least partially convert the salt including oxygen acid radical of nitrogen to a salt including carbonic acid radical and wherein the salt including carbonic acid radical react with nitrogen oxides to partially regenerate the salt including oxygen acid radical of nitrogen. The claims of Group I do not require having a temperature higher than 100°C and lower than 350°C to at least partially convert the salt including oxygen acid radical of nitrogen to a salt including carbonic acid radical. Furthermore, the apparatus claims do not require wherein the salt including carbonic acid radical reacts with nitrogen oxides to partially regenerate the salt including oxygen acid radical of nitrogen.
5. A telephone call was made to Yataro Ichikawa on 9/3/04 to request an oral election to the above restriction requirement, but did not result in an election being made.

Art Unit: 1754

Applicant is advised that the reply to this requirement to be complete must include an election of the invention to be examined even though the requirement be traversed (37 CFR 1.143).
